Care and Cleaning Instructions: To prevent build up of dirt and contaminants, which may cause permanent staining, periodic cleaning is highly suggested. The frequency of cleaning is dependent upon the environmental conditions the material is subjected to.

For Normal Cleaning: Most stains can be easily cleaned using warm, soapy water and clear water rinses. Moderate scrubbing with a medium bristle brush will help loosen soiling materials from the depressions of embossed surfaces. For more stubborn stains, use Formula 409® All purpose Cleaner** in accordance with the manufacturer's instructions.

Full strength rubbing alcohol or mineral spirits*** may be tried cautiously as a last resort on very stubborn stains, if the above suggestions do not work. Indiscriminate use of any solvent or solvent containing cleaner, can severely damage or discolor vinyl.

**Note: Detergent should never be used on a regular or repeated basis for normal cleaning. Morbern recommends repeated rinsing with clear water after any cleaning procedure.

***Caution: Exercise care as these solvents are flammable. Use only small quantities of solvents and keep clear of any sources of ignition. Wear protective gloves and ensure cleaning takes place in a well ventilated area.

Natural Linen is bleach cleanable (9:1 blend with water). A rinse is recommended after cleaning to avoid a build-up of cleaners.
