

Kadia Mod

The re-imagined Kadia Mod has been engineered with clean lines, refreshing comfort, enhanced performance, and lifetime durability that you have come to expect from Knú Comfort®. The Kadia Mod Series features a molded foam seat which allows for exceptional comfort coupled with consistency in look and feel from one seat to the next in a public area setting. The Kadia Mod has a passive flex back integrated into the design, which allows for a slightly noticeable minor flexing of the back, which again provides added comfort as a standard. The Kadia Mod Series is a full family of products that has an integrated “wall saver” leg design, adjustable leveling glides, three standard powder coat frame colors, and unlimited color options available upon request. Urethane and Solid Surface Arm Cap options are available, as well as replaceable components should an update or reconfiguration be needed in the future.
