Kadia Luxe Durable® 650 Series
Mobile Healthcare Recliner » **KL1117UQ-TE-FT**

Durable® 650 Series Healthcare Recliners

The Durable® 650 Series is our premier collection of mobile healthcare recliners. Featuring our patented unitized mechanism that is counter balanced by weight (extending to a true flatbed position), 650 lb weight capacity, and near limitless option configurations to adapt to any environment, the Durable® 650 Series truly encapsulates our core product values of Comfort, Durability, and Performance to make it a recliner choice trusted by patients and caregivers alike. Engineered from the ground up with cleanability in mind, its removable back and lift up seat, along with the absence of entrapment areas, make it a strong asset in infection control. Our legacy of Comfort combine with a passion for well-being in the Durable® 650 Series to prove beyond doubt - Comfort Heals®.

Durable® 650 Series Compact

Healthcare Recliner
22" Seat Width

The Durable® 650 Series Compact Recliners are the size conscious variation of our most popular recliner series.

Featuring all of the available functionality- patented unitized mechanism (extending to a true flatbed position), 650 lb weight capacity, and near limitless option configurations to adapt to any environment- our Compact mobile healthcare recliners are standard with a tightened seat width of 22" between the arms and available models with narrow arms to allow use in smaller patient room and other healthcare settings. The optional Q3 Central Locking Casters further adjust the scale, lowering the seat height an additional inch to accommodate pediatric patients.

Durable® 750 Series Bariatric

Healthcare Recliner
29" Seat Width

The Durable® 750 Series is the Bariatric version of our premier Durable® 650 Series of mobile healthcare recliners. Featuring a patented unitized mechanism (extending to a true flatbed position), 750 lb weight capacity, and near limitless option configurations to adapt to any environment, the Durable® 750 Series truly encapsulates our core product values of Comfort, Durability, and Performance to make it a recliner choice trusted by patients and caregivers alike. Engineered from the ground up with cleanability in mind, its removable back and lift up seat, along with the absence of entrapment areas make it a strong asset in infection control. Our legacy of Comfort combine with a passion for well-being in the Durable® 750 Series to prove beyond doubt - Comfort Heals®.

Durable® 750 Series Bariatric Mobile Healthcare Chaise Recliner with Dual Patient Transfer Arms/Rema Style » **RBC1162U.**

Hydraulic Lift Exam Recliner/Rema Style » **R7M67RU.**

Power Lift Exam Recliner/Rema Style » **R7P18J.**

Exam Lift Recliner Series

The Exam Lift Recliners (including Hydraulic and Power variations) are engineered with threefold functionality as a recliner, exam surface, and sleep space, with true flatbed position. Both styles of Exam Lift Recliner raise to a 36" exam height in all positions, while providing trusted Comfort, Performance, and Durability.

Body Weight Activated Glider/EV Style » **E1716J & GOT00.**

Body Weight Activated Gliders

Our Gliders have been engineered with a body weight activated mechanism that locks into a stationary position as the user exits. They are designed for controlled environments such as senior living, wellness rooms, or office lounges, as well as new mother rooms, in which the gliding motion is beneficial. The common thread among all our Glider models is the trusted Comfort we have come to be known for.

High Back Patient Chair

The High Back Patient Chair is our open arm, metal frame modular seating designed with the shared aesthetic of our comprehensive Kadia or Koncert family of product, while incorporating the Comfort, Performance, and Durability that Knú Comfort™ is known for. The High Back Patient Chair also incorporates the same passive flex back for optimal Comfort as a standard feature, along with clean out (or wipe out area) in between the seat and back, as well as leveling glides.

High Back Patient Chair/Kadia Mod » **KAM10HJ.**

Max Sleep Sofa

The Max Sleep Sofa earns its name with its ability to maximize valuable space in healthcare environments, with a back that folds out to form a full sleep surface for users, while keeping the same original footprint. Available with many different options to enhance Performance and Comfort, such as recliner leg supports, stationary and lifting tables, numerous widths and arm sizes, among others, the Max Sleep Sofa has become one of our fastest growing series in the patient room setting.

Max Sleep Sofa with Hydraulic Lift Center Table [Patent-Pending] & Dual Leg Supports » **M78RLRUFJ**.

Oxley Sleep Sofa

The Oxley series of sleep sofas provides a high Performance sleep space for users with the added Comfort and Durability required for healthcare environments, while folding up into either sofa or bench variations to conserve space. The fold out functionality of the Oxley cushion creates a low elevation sleep surface that has made it a popular choice for children’s hospitals and other applications where a young one may be using it, while also maintaining separate seat and sleep surfaces.

Oxley Sleep Sofa [Pulled Out/Sleep Position]

Oxley Sleep Sofa with Upholstered Front and 5" Square Arm » **OW2176UFF**.

32" Sleep Chair » **E0700**.

Sleep Chairs

Our collection of Sleep Chairs offer a three position space saving design, with chair, chaise lounge, and sleep positions all available in a single product. The Sleep Chairs are available in a variety of sizes, including dual chairs with independent right and left chair/sleepers. Most models include the Soft Luxe seat cushion system with Bolsa coils to provide a peak level of Comfort and Durability.
