

Durable[®]

SERIES OVERVIEW

550 ▪ 650 ▪ 750 ▪ *Power* ▪ *Exam Lift*

What is Durable®?

Each series from La-Z-Boy® Healthcare | Knú Comfort® that carries the Durable® name is designed from the ground up with the performance and durability needed in 24/7 healthcare environments. A myriad of functionally distinct recliners multiplied by a vast array of options creates a depth and breadth of possibilities that is unparalleled in the industry. Common to all Durable® products is the trusted comfort that La-Z-Boy® Healthcare | Knú Comfort® is known for.

Model KMC3117
Compact Mobile Healthcare Recliner*

Standout Features

While each Durable® product series has its own distinct features, the core benefits of Durable® recliners are shared across the board.

Patient Transfer, Simplified

Optional transfer arms enable smooth, safe movement of patients from the recliner to a bed or other position. Single or dual sided fold down arms allow transfer in both the seated and full flatbed position.

Crafted for Cleaning

All Durable® Series recliners feature a quick removable back that can come off for cleaning in seconds. Zero entrapment areas and a lift up seat allow fast sanitization on every shift.

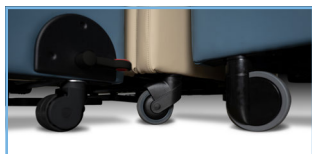

Dressed to Heal

Multiple back styles, arm cap designs and materials, and thousands of healthcare grade textiles enable Durable® Series recliners to fit the aesthetic of any space.

Ready to Roll

Durable® Series recliners are standard with casters and built to move. Three different sizes are available to customize seat height or ground clearance, and central locking and steering systems are available on most models.

Patented Durable® Mechanism

The patented unitized mechanism in manual recliners eases the user into position with smooth, full-body motion, while control wand buttons on power models take users to the desired position with fluid, multi-axis movement.

Expansive Options

A full range of optional add-ons allow Durable® Series recliners to be customized to any setting. Healthcare options such as Foley bag holders and convenience features like USB charging or monitor arms enhance both wellness and patient experience.

Made in the USA

Healthcare Rocker Recliner DURABLE® 550 SERIES

The Durable® 550 Series boasts the durability and performance of other Durable® healthcare recliners, all while bringing the soothing rocking motion that has made it popular in women's and children's units, patient rooms, and even fire stations.

Available mobile (with a foot switch to lock the rocking function before movement) or on a stationary base, the Durable® 550 Series offers maximum comfort, which can be further enhanced with the addition of the optional head rest pillow or adjustable back pad.

Weight Capacity: 550 lbs

Aesthetic Styles*: EV, Rema, Kadia Mod, Konkert

Limitless Customization

The breadth of options available with Durable® Series recliners is unsurpassed, adding both the functionality and comfort to fit them to any healthcare application.

Patient Transfer Arms

Fold down and removable transfer arms allow caregivers to relocate users directly to a bed or other surface, reducing opportunities for falls.

550 650 750 **E Z L**

Heat / Heat & Massage

Heat and Massage options enhance comfort for users during extended sessions or procedures in which body heat is lost. Wand or in-arm controls available.

650 750 **E Z L**

Chaise Continuous Leg Support

With nonstop upholstery from the back of the seat to the front of the footrest, the Chaise Continuous Leg Support keeps legs warm and is designed for easy cleaning.

550 650 750 **E Z L**

Central Locking Caster System

A single pedal locks the recliner's casters to secure it in place. Most recliners are also available with lock/steer systems. Lift Assist recliners have auto-lock casters.

650 750 **E Z L**

Infinite Position Locking Back

Locks the back into any position desired, including full flatbed, so it will not move unintentionally. (Power recliner backs lock into place unless moved via control wand).

550 650 750 **E Z L**

Battery Backup

Available on powered models, it enables recliner functions in the event of a power outage so users are always able to get back to the seated position.

E Z L

IV Pole & Bracket

Attaches on outside of arm towards back. Available on one or both sides.

650 750 **E Z**

Trendelenburg

Pedal activated on manual recliners, engaged with control wand on power recliners.

650 750 **E Z L**

Foley Bag Holder

Accommodates Foley bags and other drainage bags. Closes flush with chair when not in use.

550 650 750 **E Z**

Foot Tray

Pull out foot tray easily slides out to support patient's feet for added comfort while seated.

650 750 **Z L**
