

350 Series Standard Recliner

The New Standard for Senior Living

Designed to meet a need in senior living and long-term care environments, these recliners can be specified with a mobile or stationary base, along with the choice between handle operated or fully powered recline. A 350 lb weight rating and chaise continuous leg support ensure maximum durability and comfort.

Highlights

- Available with mobile or stationary base
- Manual (handle) or power (wand controller) recline options
- Standard with chaise continuous leg support for added comfort
- Customize aesthetic with multiple back & arm cap styles
- 350 lb weight capacity
