

# 350 Series Room Saver™ Recliner

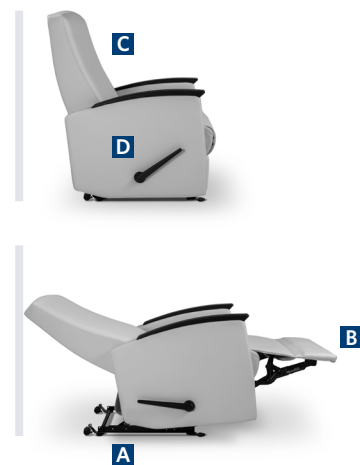

## Compact Comfort for Senior Living & LTC

The Room Saver™ recliner by Knú® Healthcare houses a specialized mechanism that allows the chair to reach its fully extended position while being only six inches in front of a wall. It is an ideal solution for senior living and long-term care applications in which space is at a premium.

## Highlights

- A** Special space saving mechanism allows full recline at 6" from wall
- B** Standard with chaise continuous leg support for added comfort
- C** Customize aesthetic with multiple back & arm cap styles
- D** Recliner handle assists weakened occupants by opening foot rest without need to push against back
- E** 350 lb weight capacity

*\*For Acute Care applications, see Durable® Series recliners at [www.getknu.com](http://www.getknu.com)*
