*Pullout Sleep Sofa with 3.5" Square Arm*

## FAMILIARITY OF HOME. EASE OF USE.

The Oxley series of sleep sofas provides a high performance sleep space for users with the added comfort and durability required for healthcare environments, while folding up into either sofa or bench variations to conserve space. The fold out functionality of the Oxley cushion creates a low elevation sleep surface that has made it a popular choice for children's hospitals and other applications where a young one may be using it, while also maintaining separate seat and sleep surfaces.
