

# Durable® Power Series ZG EXAM LIFT RECLINER

## Comfort in Versatility

The newest addition to the Durable® Power Series, the ZG Exam Lift Recliner is engineered with threefold functionality as a power recliner, exam surface, and sleep space (with true flatbed position). Raising to a 36" exam height in all recliner positions via the dual side foot pedals, it provides trusted comfort, performance, and durability in a single, versatile package.

## Highlights

- A** Powered lift movement to exam/treatment height by caregiver via non-handed foot pedal
- B** Power control wand allows fully adjustable 3-axis movement, along with preset buttons for popular positions, including weightless zero gravity recline
- C** Central locking caster system, operated by non-handed foot pedal
- D** Single & dual patient transfer arms available, along with a spectrum of other options
- E** Quick removable back & lift up seat for easy cleaning
